

## SHOWER & BATHROOM PANELS

Cascade™ Shower Panels are a decorative and highly practical range of interior panels for bathroom, shower and wet room applications. Featuring unique properties, they provide a flush waterproof and moisture resistant wall. Available in a great choice of colours they are easily installed to existing or new walls and can be affixed to all types of surfaces.

They are a cost effective and practical alternative to tiling, do not require grouting, require minimal maintenance, and feature easy-clean, wipe-free surfaces to keep their look and water repellent properties. These extra wide panels quickly fit together and come with a range of finishing trims to ensure a great look backed with a 10 year guarantee.

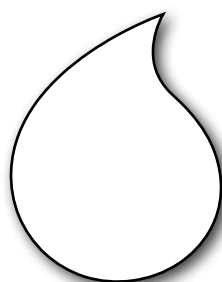

## AVAILABLE IN A GREAT RANGE OF COLOURS

**BLACK SPARKLE**  
PW-1000-BS

PW-1000-PG

**GREY MARBLE**  
PW-1000-GM

**RAINBOW SPARKLE**  
PW-1000-RS

**WHITE SPARKLE**  
PW-1000-WS

Cascade™ Shower Panels have a high gloss finish, are waterproof and designed specifically for showers and wet rooms. They have insulation and sound proof properties and can be fitted over existing tiles. These larger width panels are easier and quicker to fit than conventional panels. No training is required. Cascade™ Shower Panels are a high specification PVC, with a strong construction, which provides a greater impact compression resistance. They are ideal for the home, commercial, hotel, school or in the work place.

## CARE AND MAINTENANCE

Cascade™ Shower Panels are hygienic and easier to maintain than tiles. There is no grouting that will discolour in time and require a minimum of maintenance to keep in pristine condition. Simply wipe down with hot soapy water and a soft cloth. Abrasive cleaners must not be used on the panels.

## CASCADE SHOWER PANELS TECHNICAL INFORMATION:

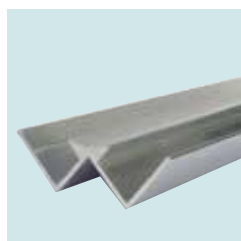

- Width: 1m, Height: 2.4m, Thickness: 10mm • Light and easy to handle
