# Wall & ceiling coverings the **PLASTIVAN** way . . . *hard wearing and durable*

**T**he way we use our home has changed . . . we all lead busy lifestyles and we need our home comforts to relax us at the end of a busy day.

We want our homes to look stylish, practical for everyday living which is why Plastivan has created decorative wall and ceiling coverings for today's lifestyle.

## **Something for everyone**

Whatever your taste, style or budget, whether you fancy contemporary, modern or traditional, our wall and ceiling coverings are the answer.

## **Easy fit, easy clean, easy maintain**

Our stylish wall and ceiling coverings are easy to fit, are low maintenance, and cover slight imperfections. They are water repellent, featuring easy clean, wipe free surfaces - ideal for **any** room at home, in your office or business. You can choose from a host of designs, all of which will complement any room.

Whether it's a lounge, bathroom, kitchen, playroom or study - in fact any room you use - they will benefit from our easy fit coverings.

## **"Why we love our Plastivan bathroom . . ."**

**"Simple really . . . it's modern, stylish and takes all the strain our busy family can throw at it!"**

**wipe free surface**

**water repellent**

**"We love the fit and attention to detail"**

**YES**

We offer a 10 year guarantee on all our products.

**YES**

### General Information

**Coverage:**  
Each standard pack covers an area of 2.7sq metres. Product available in standard lengths of 2.7 metres or, where indicated, available in 4.5m and 6m.

**Maintenance:**  
Use normal cleaning agents i.e hot soapy water and a soft cloth or sponge. Solvents are not recommended, neither should aggressive cleaning agents be used.

**Fire:**  
Plastivan have Class 1 fire certification for various products, please contact us for further details.

**Temperature:**  
Use the product in temperatures between -20°C and +60°C.

**Down Lighters:**  
Refer to temperature information.

**Performance:**  
Plastivan Decor is for internal use only, when installed and maintained as per our instructions, the product is covered by a 10 year guarantee against crazing or fading due to U.V light. Only a low tack masking tape may be used during installation and must be removed immediately afterwards.

**Preparation:**  
During the course of manufacture some variation in shade or pattern can occur. Sufficient panels for the area to be covered should be obtained in one consignment, all of the same production date (found on reverse of boards) to ensure a supply of compatible shades.

Please ensure that the builder or installer is aware of this information as no liability can be accepted once panels have been fitted.

Part No: 21

Wall & ceiling coverings explained...

### WHAT IS A WALL AND CEILING COVERING?

Our flush fitting PVC panels, once fitted correctly, are waterproof and resistant to normal movement. **They do not need grouting or any maintenance - just a surface wipe down.**

Plastivan WALL and CEILING PANELS are for internal use only. When installed and maintained, as per our instructions, the product is covered by a 10 year guarantee against crazing or fading due to U.V light.

### HOW DO THEY FIT?

These PVC Panels are easy to install. Wall surfaces do not need to be completely flat, slight imperfections are no problem, you may glue/silicone the panels to the wall. If not you can either staple, nail or screw the boards on wooden battens. In rooms with a high humidity treated wood and stainless steel fixings should be used. Extra insulation can be installed between the battens.
